

**A child's future shouldn't be decided by the roads they walk,
but by the books they read.
Yet, in Dahanu, education is still a distant dream for many.
It's time to bring the classroom closer!**

THE NEED

- Education is the key to breaking the cycle of **poverty**, yet many children in Dahanu, especially **rural Muslim boys and girls**, are deprived of proper schooling due to a lack of infrastructure.

WHY STUDENTS DROP OUT: THE UNSEEN ROADBLOCKS TO EDUCATION

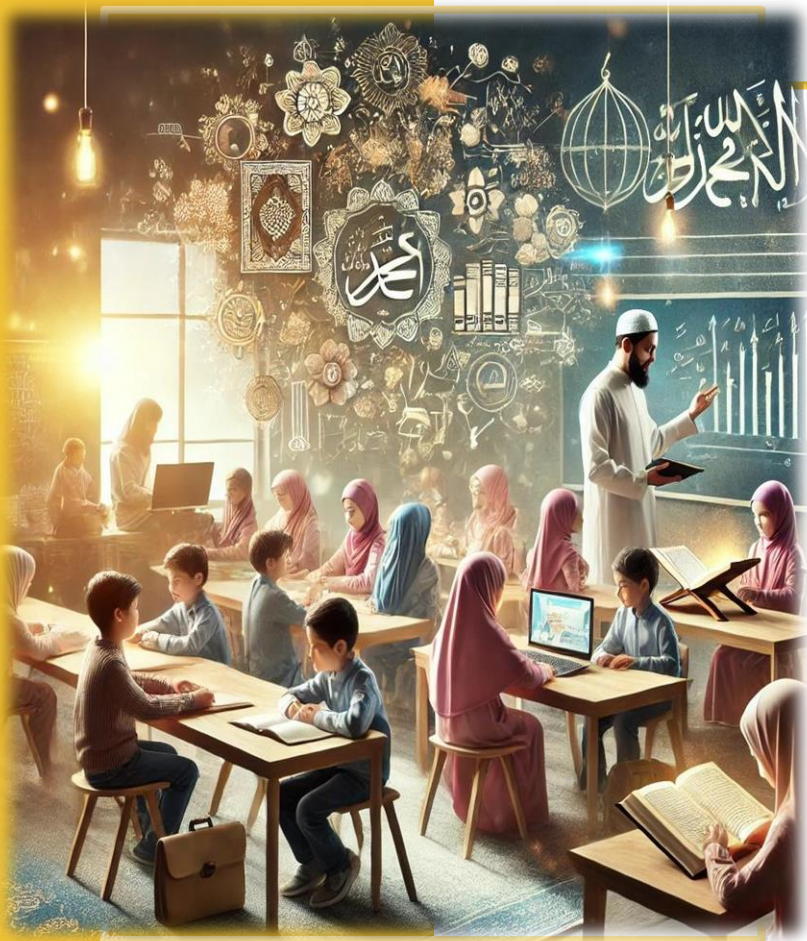

01 **Financial Constraints in families and/or family pressure to contribute financially**

03 **Lack of accessibility** as limited schools and resources hinder learning opportunities.

05 **Career Awareness Gap** as students lack exposure to career possibilities

02 **Societal norms** of prioritizing religious beliefs over education

04 **Low Engagement** in students as outdated teaching methods creates lack of interest

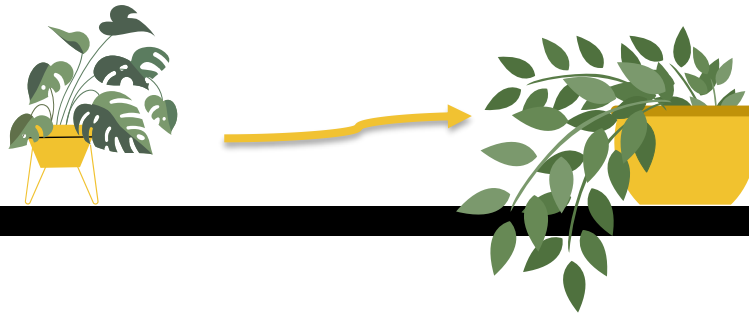

THE NEED

- To address this, we propose an **exclusive English-medium school** with an emphasis on **moral education, skill development, and career-oriented learning**.
- This school aims to **bridge the gap**, providing **affordable and accessible education**, integrating **Deen (Islamic education)** and **Duniya (worldly education)** to ensure a holistic upbringing.

THE VISION

"To create an institution where knowledge, skills, and faith come together, empowering the next generation to serve both their **community and the world** with excellence."

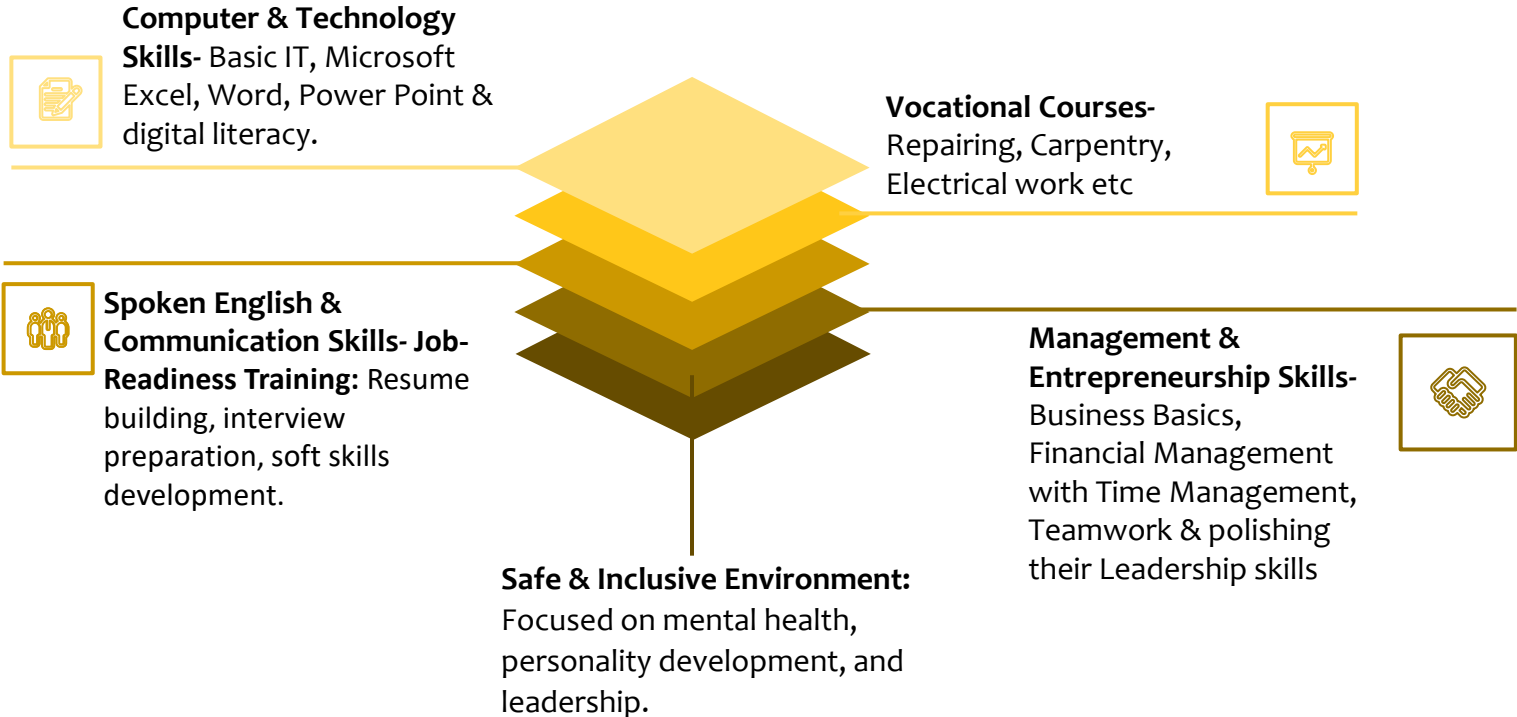

THE MISSION

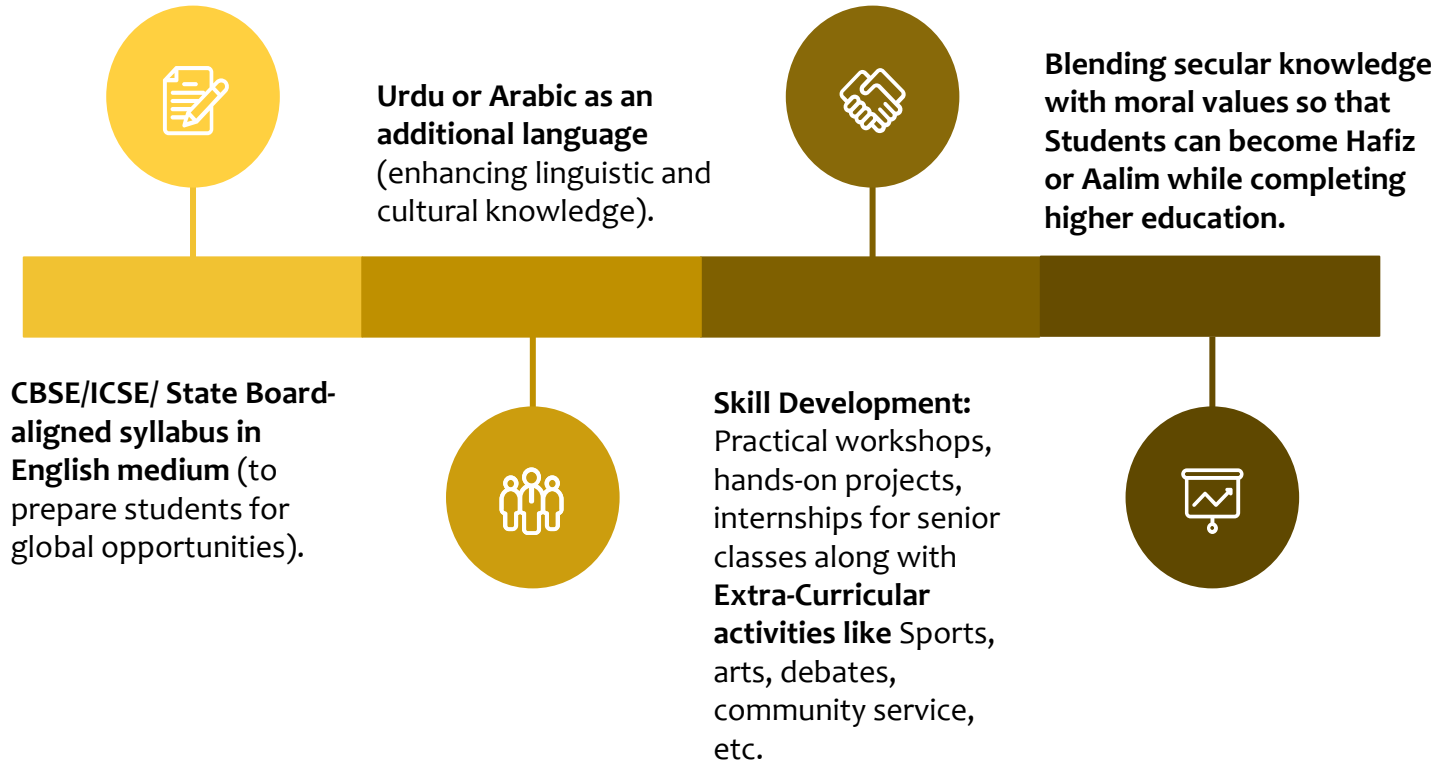

- To educate and uplift underprivileged Muslim children especially girls, ensuring they receive equal opportunities.
- **Strengthen the community** by educating future leaders who will uplift those around them.
- To create a self reliant, **morally upright, skilled, and educated generation** who can **serve their families, society, and the world.**
- Equip students with **life and job-ready skills** so they can secure careers in India and abroad and create parental awareness programs
- Provide **affordable, high-quality education while integrating Deen and Duniya**, ensuring students can **excel in worldly knowledge** while staying connected to their faith.

OUR SOLUTIONS: SKILL-BASED & PRACTICAL LEARNING

OUR SOLUTIONS: CURRICULUM OVERVIEW

KEY GOALS

SHORT TERM

- Establish the school with proper infrastructure and facilities.
- Enroll the first batch with a focus on girls' admission & underprivileged Muslim Students
- Hire trained teachers for academics and life skills.

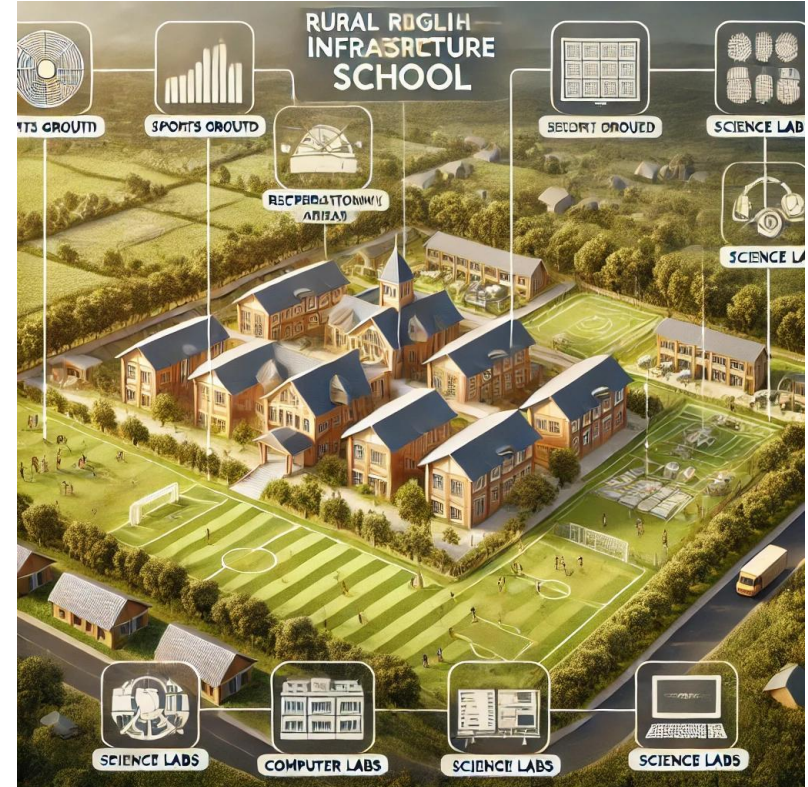

LONG TERM

- Develop partnerships for student placements and higher education opportunities.
- Become a model institution for rural educational development.
- Expand in nearby towns

INFRASTRUCTURAL PLAN

SHORT TERM
